F	PURPOSE OF APPRAIGNAL. TO THE STATE OF THE S
	PURPOSE OF APPRAISAL: The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report based on a quantitative sales comparison analysis for use in a mortgage finance transaction.
l	DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all
ı	conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer
ı	under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting
ı	in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made
l	in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration
ı	for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.
l	* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those
ı	costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the
ı	seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable
ı	property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or
l	transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.
L	anothe of any adjustment should approximate the maneter reaction to the maneting of concessions based on the approximate
ı	STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION
l	CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:
l	
l	1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the
ı	basis of it being under responsible ownership.
l	
l	2. The appraiser has provided any required sketch in the appraisal report to show approximate dimensions of the improvements and the sketch
l	is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
ı	3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific
ı	arrangements to do so have been made beforehand.
l	4. The appraiser has noted in the appraisal report any adverse conditions (such as, but not limited to, needed repairs, the presence of hazardous
ı	wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during
ı	the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraisar has no knowledge
ı	of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous
ı	wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and
ı	makes no guarantees or warranties, expressed or implied, regarding the condition of the property. The appraiser will not be
ı	responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions
ı	exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered
ı	as an environmental assessment of the property.
ı	5. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be
ı	reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by
ı	other parties.
l	
l	6. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
l	7. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal
l	report (including conclusions about the property value, the appraiser's identity and professional designations, and references
ı	to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower;
	the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or
l	federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of
	Columbia; except that the lender/client may distribute the report to data collection or reporting service(s) without having to obtain the
	appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be
l	conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
l	8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to completion per plans and specifications on
l	on the basis of a hypothetical condition that the improvements have been completed.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I performed this appraisal by (1) personally inspecting from the street the subject property and neighborhood and each of the comparable sales (unless I have otherwise indicated in this report that I also inspected the interior of the subject property); (2) collecting, confirming, and analyzing data from reliable public and/or private sources; and (3) reporting the results of my inspection and analysis in this summary appraisal report. I further certify that I have adequate information about the physical characteristics of the subject property and the comparable sales to develop this appraisal.
- 2. I have researched and analyzed the comparable sales and offerings/listings in the subject market area and have reported the comparable sales in this report that are the best available for the subject property. I further certify that adequate comparable market data exists in the general market area to develop a reliable sales comparison analysis for the subject property.
- 3. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware, have considered these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them, and have commented about the effect of the adverse conditions on the marketability of the subject property. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
- 4. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
- 5. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 6. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
- 7. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
- 8. I estimated the market value of the real property that is the subject of this report based on the sales comparison approach to value. I further certify that I considered the cost and income approaches to value, but, through mutual agreement with the client, did not develop them, unless I have noted otherwise in this report.
- 9. I performed this appraisal as a limited appraisal, subject to the Departure Provision of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of the appraisal (unless I have otherwise indicated in this report that the appraisal is a complete appraisal, in which case, the Departure Provision does not apply).
- 10. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value. The exposure time associated with the estimate of market value for the subject property is consistent with the marketing time noted in the Neighborhood section of this report. The marketing period concluded for the subject property at the estimated market value is also consistent with the marketing time noted in the Neighborhood section.
- 11. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. further certify that no one provided significant professional assistance to me in the development of this appraisal.
